

Streetsbrook Eco Team
Minutes Friday 9 May 2014
12 noon in the Library

1. Welcome

Mrs Miller welcomed everyone to the meeting.
Miss Collier and Ms Rose sent apologies

2. Fit Points - Update

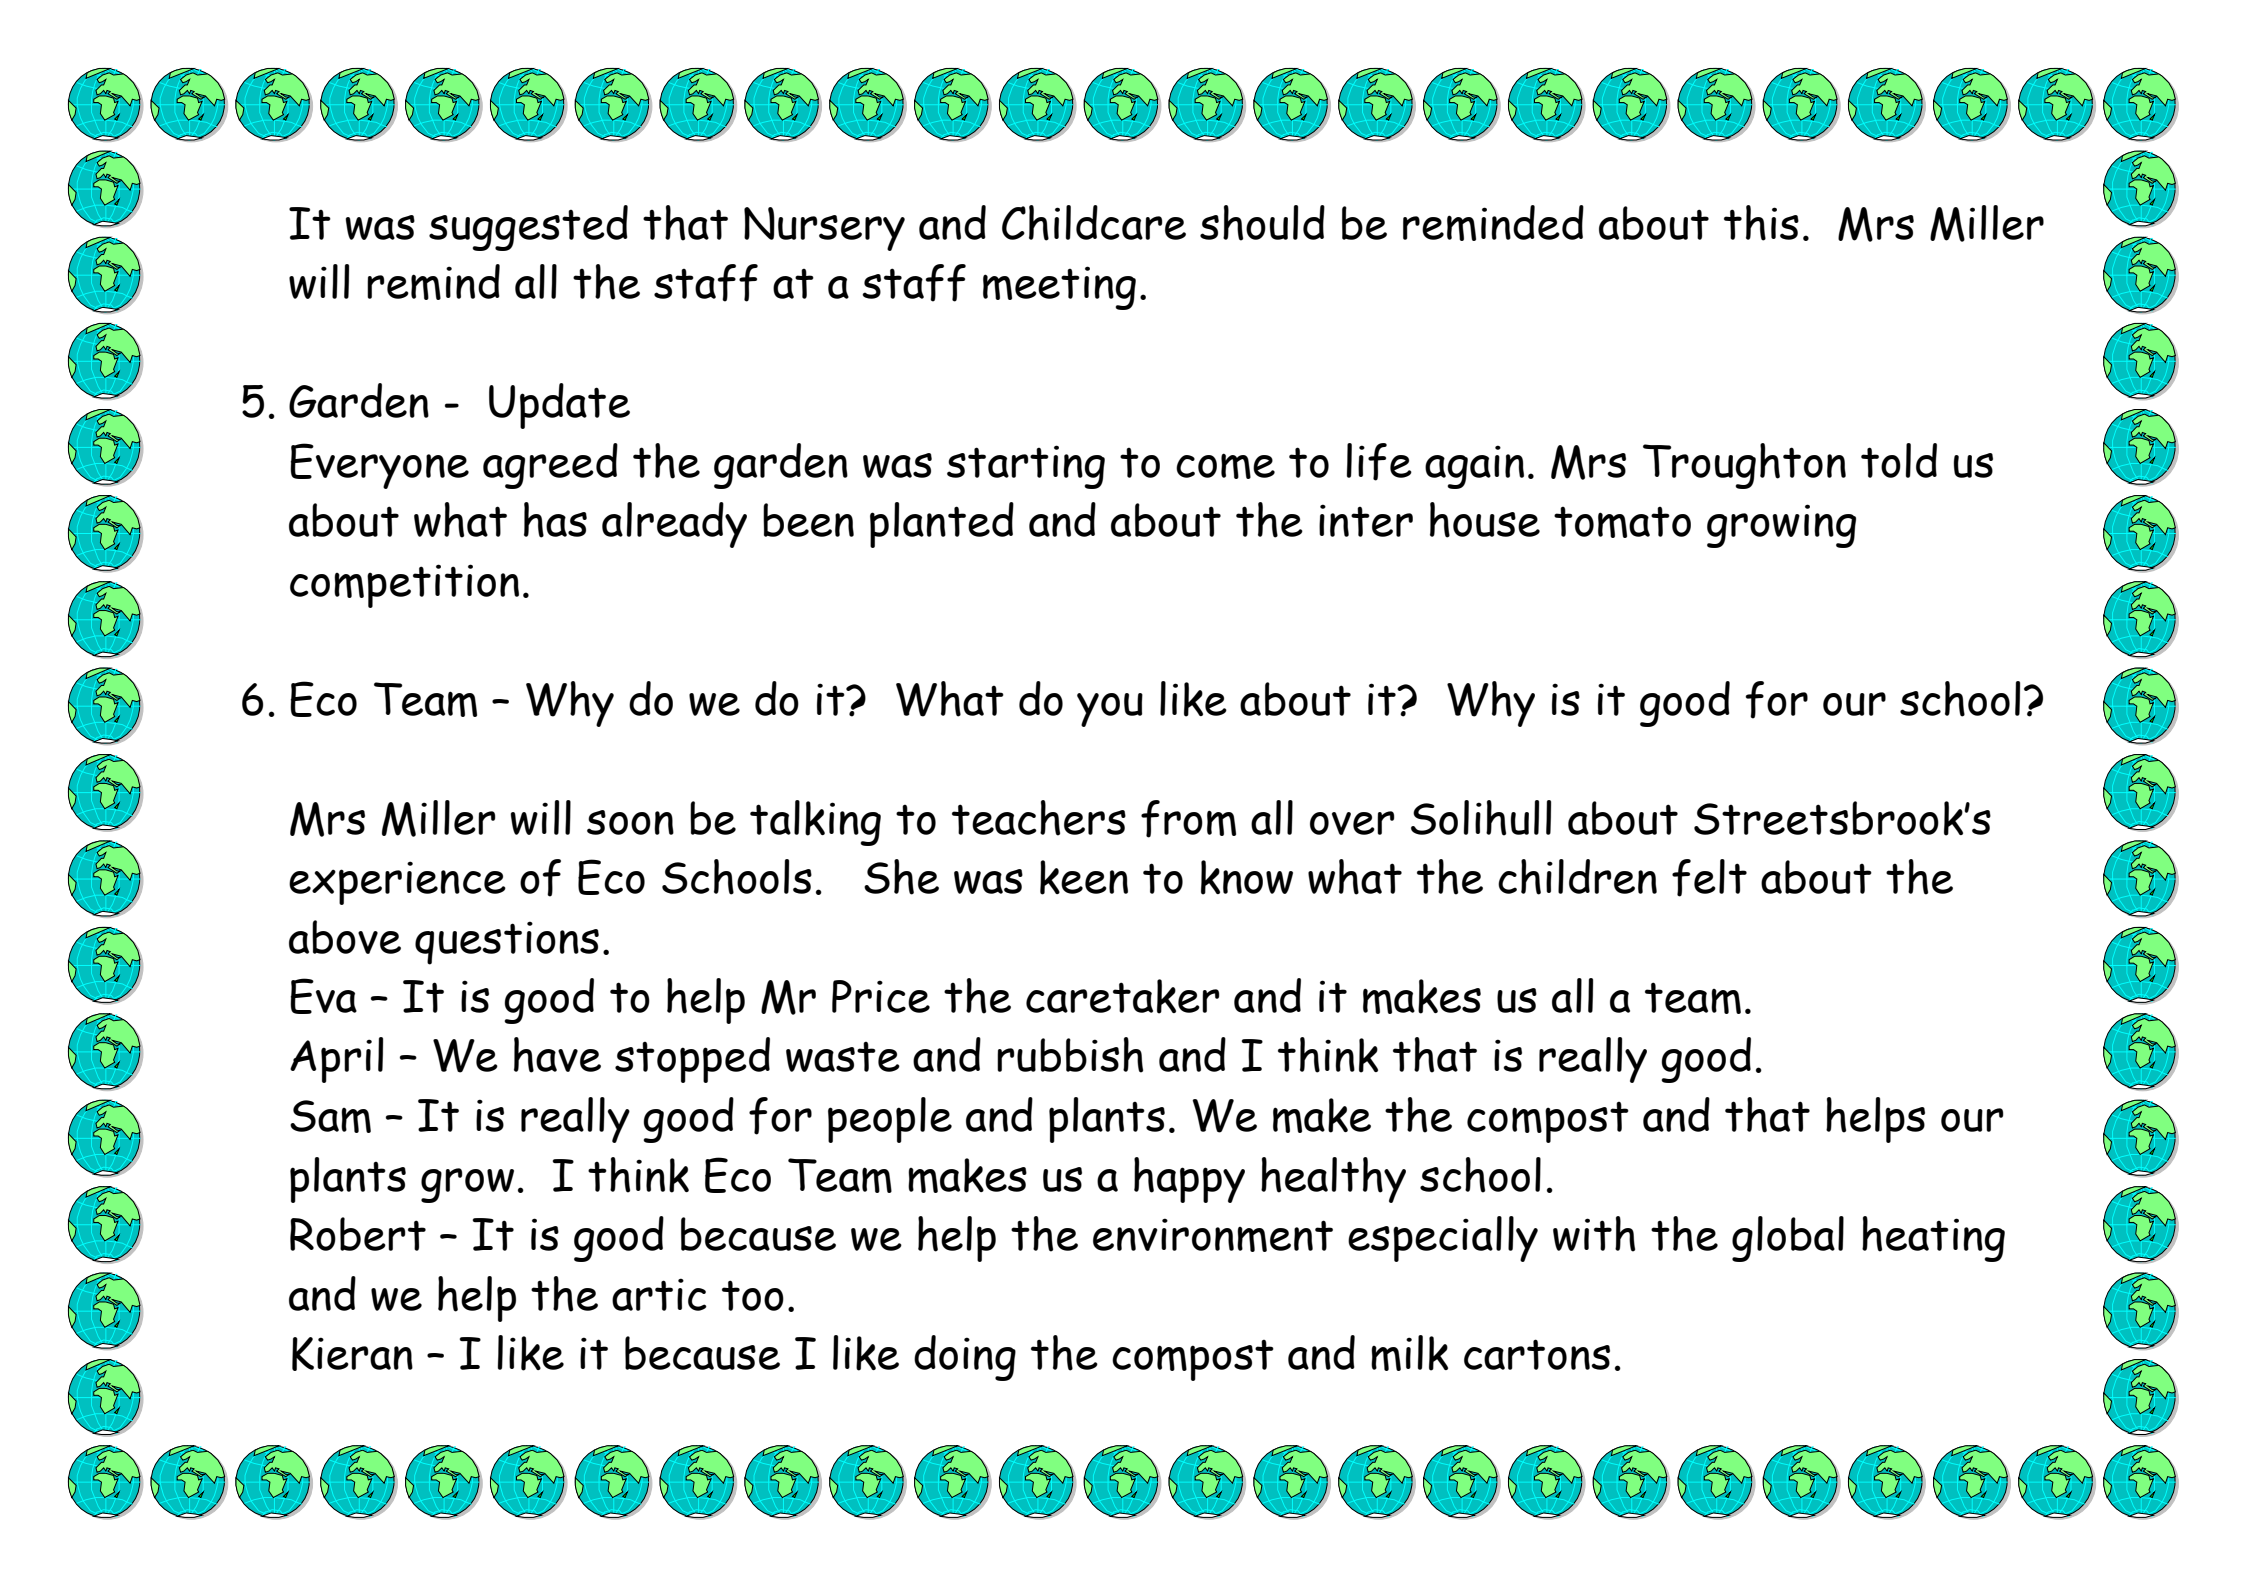

Everyone agreed the launch of Streetsbrook Fit Points, (inter house competition) as part of our marathon was successful. There is now a Fit Points display in the hall and everyone is excited to find out who the first winners will be.

3. Energy - Eco Points - Update

2A were the most recent winners of our Eco Points challenge. The children in Year 2 expressed their willingness to accompany Mrs Miller on some of her secret spot checks. Mrs Miller will organise this ASAP.

4. Compost - Update

It is currently 2Bs turn to collect compost and plastic. This is going well. Everyone was asked to watch out for unnecessary plastic bags in the compost.

It was suggested that Nursery and Childcare should be reminded about this. Mrs Miller will remind all the staff at a staff meeting.

5. Garden - Update

Everyone agreed the garden was starting to come to life again. Mrs Troughton told us about what has already been planted and about the inter house tomato growing competition.

6. Eco Team - Why do we do it? What do you like about it? Why is it good for our school?

Mrs Miller will soon be talking to teachers from all over Solihull about Streetsbrook's experience of Eco Schools. She was keen to know what the children felt about the above questions.

Eva - It is good to help Mr Price the caretaker and it makes us all a team.

April - We have stopped waste and rubbish and I think that is really good.

Sam - It is really good for people and plants. We make the compost and that helps our plants grow. I think Eco Team makes us a happy healthy school.

Robert - It is good because we help the environment especially with the global heating and we help the artic too.

Kieran - I like it because I like doing the compost and milk cartons.

Alex - We can share our ideas about helping Africa.

Belle - I like that we grow stuff, like loads of vegetables.

Jack - We should tell people that it is really good in Eco Team and they should have one in their school.

Amber - Eco is important, if we didn't do it the environment wouldn't be so good.

Shriya - We need to share with Africa and everyone.

Daniyal - We can share our fruit with other people

Isha - Eco helps people in need.

Dorothy - I think the best thing is the compost.

William - Eco might even help people stay alive.

Sara - It's fun and you can get points and win things.

Mrs T - I love the way we share ideas together. The children get involved with things like the lights and taps and take responsibility for them.

7. AOB

There was no other business.

Date of next meeting - 12 noon, Friday 27th June 2014
